Just a note about capital letters

It is important to learn the proper way to do things, that way poor habits are not developed. With that philosophy in mind, words that should not have capital letters will be counted incorrect on Spelling tests and papers. We are learning when to capitalize, so students will understand when to capitalize and when not to. There will be times when names or places are used and should be capitalized. However most times capital letters should not be made on the spelling test. Please work with your child to form their letters on the proper lines so the letters are correct and not mistaken for capital letters.
