this THAT & And the other thing

Because what happens in 3rd grade, stays in...
(AHEM) gets sent home in a weekly newsletter

In math class this week, we'll learn how to divide with 2-digit divisors.

In language class, we'll learn about antonyms and homonyms.

This week we'll complete our invertebrate reports. Rough drafts are due Wednesday, and final drafts are due Friday. This is our last Animal Notebook report!

The school-wide extra credit memory verse for May is:

Colossians 3:23 - Work willingly at whatever you do, as though you were working for the Lord rather than for people.

For an additional 10 XC points, write a short paragraph explaining why it is important to follow the instruction of Colossians 3:23.
